

VOLUME 1

# Inspiration Lookbook

# Furniture for a life of learning

RT London is designing, building, and delivering furnishings for the first night, the all-nighters, and the lifelong memories made at school. We are passionate about providing products that enhance brands while supporting the lifestyle of students. Our furniture encourages the celebration of personality without sacrificing usability or dependability. Everything from beds and lounge seating to tables and chairs are made with pride in our two US based manufacturing facilities - one plant in Grand Rapids, MI, and one plant in Lacey, WA.

# Why RT London?

## American Made

From initial design to the final stitch of upholstery, our products are made domestically, helping to ensure quick delivery.

## Customer Service

Our support is continuous throughout the purchase and well after. Building long-term customer relationships is our goal.

## Custom Capabilities

Custom can mean a lot of things. At RT London it means tailoring solutions to fit your specific needs.

## 25 Year Warranty

We stand behind quality. The majority of products in our line hold a 25 Year Warranty.

## Design Services

Our Interior Designers are here to assist with your furniture and finish selections. With the help of 3D rendering software, we can create the visual for your new spaces.

It's through a wide array of colors, materials, and finishes that your vision can be realized. That's why we take great pride in being able to offer one of the most robust, curated selections of products. And, for over 30 years, we've been working with our suppliers to tailor materials that not only look great, but can stand the test of time. Because on campus, whether it's a hard surface or a textile, the miles of wear can come quickly.

# Belmont University

## Caldwell Hall

In Caldwell Hall, a 600 bed facility with suite-style apartments—which are trending at universities today—demonstrates the RT London breadth of line. As a longstanding customer for over 25 years, they still have beds in service from their first order. The building features private bedrooms in apartment-style living with a multitude of amenities such as a fitness center, flexible basement space and vending area, a unique two-story lobby featuring study and gathering areas, and two exterior courtyards. The structure was built with the same high-performance environmental standards as other Belmont University projects.

**Location:**  
Nashville, TN

Installation  
Design  
Custom Solutions

**Products:**  
Lucy Lounge  
Turner Lounge  
Harper Chairs  
Lyon Tables  
Hudson Lounge  
Sadie Chairs

# Montreat College

## Resident Rooms and Common Areas

Montreat utilized all of RT London's services on this unique and rewarding project. RT London collaborated with them on the design of the lounge and living spaces and were also responsible for removal and installation of product. Because there was no modification to the physical structure, the interior design and furniture choices were that much more critical to the overall success. One of the biggest challenges was how to create comfortable, functional triples in a space that typically is reserved for doubles. In the end, both students and staff are thrilled with the completed project. The redesign has brought a greater level of energy and excitement to an existing space without the additional cost and time of renovation.

**Location:**  
Montreat, NC

**Year Completed:**  
2023 - Renovation

**Scope:**  
518 Room Furniture Sets  
Common Areas

**Services Provided:**
